

Photo Analysis Worksheet

Step I. Observation

- A. Study the photograph for two minutes. Form an overall impression of the photo, and then examine individual items in the photo. Next, divide the photo into quadrants and study each section to see what new details become visible to you.
- B. Use the chart below to list people, objects, and activities you see in the photo.

People	Objects	Activities

Step II. Inference

Based on what you have observed above, list three things you might infer from this photo.

1. _____
2. _____
3. _____

Step III. Questions

- A. What questions does this photo raise in your mind?

- B. Where could you find the answers to these questions?
